

 Thunderstorms within Southern Ghana

 **Urgency:** Expected

 **Severity:** Moderate

 **Certainty:** Likely

Issued:
Fri 21 Feb 2025
8 PM

Effective:
Fri 21 Feb 2025
9 PM

Onset:
Fri 21 Feb 2025
9 PM

Expires:
Fri 21 Feb 2025
11 PM

Area:
Eastern, Ashanti, Western North

Description:
A moderate to heavy rainstorm observed over the southeastern part of the middle sector is expected to continue drifting to the west and produce rain of varying intensity with strong winds within the Eastern, Ashanti and Western north regions.

Instruction:
Get a shelter. Avoid open spaces to reduce the risk of thunder, lightning and strong winds. Do not leave objects outside as they can be carried away.
