Mon	W/SW 05 KT MAX 20 KT	(0.8 – 1.6) m	(0.15 – 1.87) m	E/NE (0.25 – 0.79) m/s	Variably cloudy/Rain	

WEATHER SUMMARY

The marine region is expected to experience variable cloud cover throughout the forecast period, with sunny intervals in the afternoon. However, there is a chance of light rain both onshore and offshore. Gentle breezes are anticipated, particularly along the east coast on Monday, accompanied by an increase in wave heights during that time. Wave heights are also expected to gradually rise, leading to rough sea conditions as the weekend progresses.
