GMet Forecast Office

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: A rainstorm has made its way into Ghana from Togo and it is currently producing moderate to heavy thunderstorms over parts of the middle, transition and northern belts. The rainstorm is expected to trigger rain-bearing clouds along the coast to induce cloudiness with possibility of thunderstorms or rain this morning and into the afternoon.

NB: Moderate to strong winds are expected for some areas within the country, therefore the public is advised to take necessary precautionary measures.
