

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: Early this morning, patches of mist are expected to form over the west coast, forest, and mountainous areas amidst mostly cloudy conditions. As the day progresses, periodic sunshine will prevail across all sectors of the country. There is a likelihood of thunderstorms, with or without rain, affecting parts of the middle and transition belts, as well as isolated areas in the north, from late afternoon into the evening. The coastal areas are also likely to experience thunderstorms with rain during the afternoon.
