⚠ **Severity:** Severe

🎯 **Certainty:** Likely

Issued:

Wed 28 May 2025
16:50

Effective:

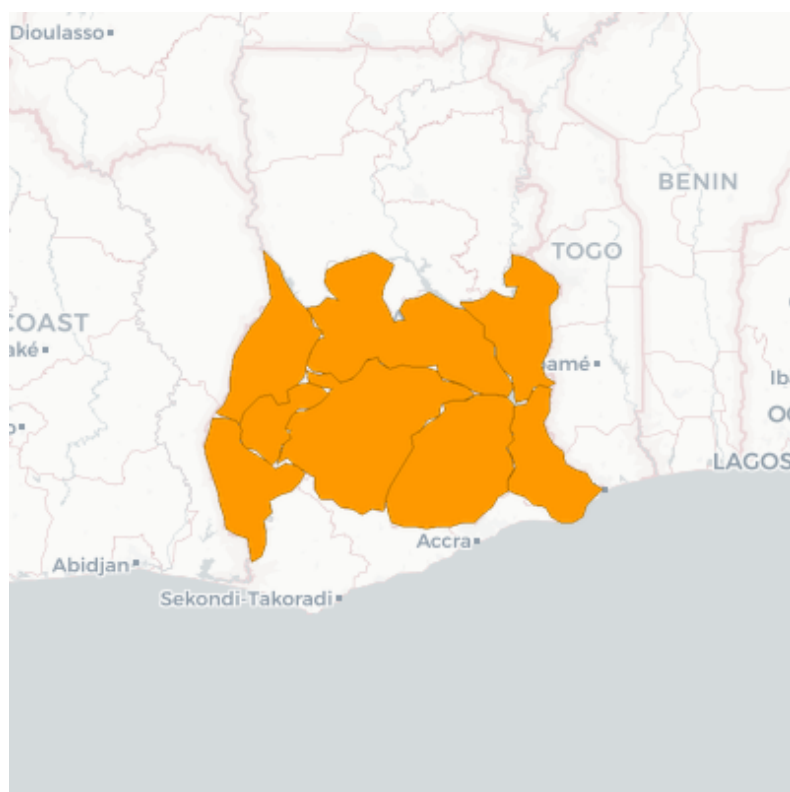

Wed 28 May 2025
16:30

Onset:

Wed 28 May 2025
16:30

Expires:

Wed 28 May 2025
23:00

Area:

Oti, Bono East, Bono, Volta, Eastern, Ashanti, Ahafo, Western North

Description:

Thunderstorms building up to the east of the country and in parts of the western portion of southern Ghana are expected to develop further and produce rain of varying intensity across the middle and transition zones. Thunder strikes, lightning flashes and windy conditions are anticipated to accompany the rains. Areas within the Oti, Volta, Bono East, Bono, Ahafo, Eastern, Ashanti, and Western north regions are expected to experience these conditions.

Instruction:

Residents in the affected areas should complete outdoor activities and secure loose items. During the thunderstorm, stay indoors and away from windows, unplug electrical appliances to prevent damage from lightning strikes, and avoid using corded phones or electrical devices connected to outlets. If caught outdoors, seek substantial shelter immediately and never take refuge under trees during lightning activity. Drivers should exercise extreme caution by reducing speed, using headlights for visibility, and avoiding flooded sections of roadway.
