

 Morning Rains over coastal Ghana

 **Urgency:** Expected

 **Severity:** Moderate

 **Certainty:** Likely

Issued:
Wed 04 Jun 2025
05:05

Effective:
Wed 04 Jun 2025
05:00

Onset:
Wed 04 Jun 2025
05:00

Expires:
Wed 04 Jun 2025
13:00

Area:
Southern Ghana

Description:
A rainstorm is currently engulfing the southeastern portion of the country. The storm is expected to cast cloudiness over the coast with a possibility of rain and thunder this morning. Areas within the Volta and Eastern regions are expected to experience rain of varying intensity this dawn to early morning hours. The Greater Accra and Central regions are also expected to experience similar conditions later in the morning before

drifting to the western region. Cloudiness will dominate the day with occasional thunder and rains.

Instruction:

Residents in the affected areas should complete outdoor activities and secure loose items. During the thunderstorm, stay indoors and away from windows, unplug electrical appliances to prevent damage from lightning strikes, and avoid using corded phones or electrical devices connected to outlets. If caught outdoors, seek substantial shelter immediately and never take refuge under trees during lightning activity. Drivers should exercise extreme caution by reducing speed, using headlights for visibility, and avoiding flooded sections of roadway.
