

 Scattered Rains over Southern Ghana

 **Urgency:** Expected

 **Severity:** Moderate

 **Certainty:** Likely

Issued:
Tue 10 Jun 2025
14:47

Effective:
Tue 10 Jun 2025
15:00

Onset:
Tue 10 Jun 2025
15:00

Expires:
Tue 10 Jun 2025
20:00

Area:
Volta, Eastern, Central, Western,
Dambai, Techiman, Sunyani

Description:
A moderate rainstorm observed over the Volta region is expected to drift westwards to affect areas within the Eastern, Greater Accra, Central and Western regions. The Eastern and Greater Accra regions will be affected before drifting to the Central and Western regions. Separate cloud developments within the Oti, Bono East, Bono and Ahafo regions are also expected to produce rain of varying intensity within the regions this afternoon.

Instruction:

Residents in the affected areas should avoid outdoor activities and secure loose items. During the thunderstorm, stay indoors and away from windows, unplug electrical appliances to prevent damage from lightning strikes, and avoid using corded phones or electrical devices connected to outlets. If caught outdoors, seek substantial shelter immediately and never take refuge under trees during lightning activity. Drivers should exercise extreme caution by reducing speed, using headlights for visibility, and avoiding flooded sections of roadway
