MARINE WEATHER ADVISORY FOR THE COAST(27TH JUNE - 1ST JULY, 2025)

During the period from June 27th to 1st July 2025, significant wave heights (SWH) are expected to peak as follows;

Peak Wave Height (SWH) Expected			
Day	West (W1-W4)	Central (C1-C4)	East (E1-E4)
Friday	2.6	2.6	2.4
Saturday	2.6	2.5	2.4
Sunday	2.8	2.8	2.8
Monday	2.8	2.8	2.8
Tuesday	2.6	2.5	2.4
Wednesday	2.0	2.0	2.0
Thursday	2.2	2.2	2.0

Conditions from **Friday, 27th June to Tuesday 1st July 2025** are expected to fall **within the dangerous sea state** category based on locally agreed thresholds. However, Wednesday, 2nd July, and Thursday 3rd July are expected to fall within the rough sea state category based on locally agreed thresholds. Marine weather users are advised to **stay informed and take necessary precautions**. The Ghana Meteorological Agency will issue timely updates should any arise.
