SUMMARY: Generally, variably cloudy weather is anticipated to be predominant across all sectors of the country this morning with mist and fog patches forming over forest and mountainous areas to reduce visibility. Slight rain or drizzle are expected to affect few places within the coast and forest belt this morning and later in the day. However, there is the likelihood of brief sunny spells during the afternoon hours with isolated thunderstorms or rain affecting the upper regions of the country.

NB: Cool early morning and late evening temperatures are expected over the entire country.
