Transition	22	30
Northern	24	33

SUMMARY: Mostly cloudy conditions are expected to prevail across the country, with a few areas likely to experience slight rain or drizzle. Additionally, mist or fog patches are anticipated to form along the coastal, forested, and mountainous areas, leading to reduced visibility in the early hours of the day. As the day progresses, occasional sunny intervals will be observed. However, from late afternoon into the evening, parts of the northern and transition zones are likely to experience thunderstorms or rain.

NB: Cold early morning and late evening temperatures are expected over the entire country.
