SUMMARY: Most areas within the country will experience cloudy weather this evening. However, thunderstorms or rain of varying intensity is expected to affect parts of the northern, transition and middle sectors from this evening into the night. Also, slight rain or drizzle is likely to affect portions of the coastal sector. During the early hours of tomorrow, mist or fog patches will develop and reduce visibility along the coastal, forested and mountainous areas.

NB: Cold temperatures will be experienced across the country during the night and early morning hour
