GMet Forecast Office

## **24-HOUR FORECAST FOR GHANA** **VALID FROM 6AM TODAY**

**SUMMARY:** Mist and fog patches will form over the forest and mountainous regions early this morning, reducing visibility, with parts of southern Ghana likely to experience slight rain or drizzle during the forecast period. Isolated thunderstorms or rain of varying intensities are expected to affect some areas in the north from this morning into the afternoon, becoming mostly cloudy across the country in the evening, with the possibility of drizzle along the coast and a few inland areas.

**NB: Cool early morning and late evening temperatures are expected over the entire country.**
