SUMMARY: This evening, mostly cloudy conditions will engulf most places of the country with the possibility of slight rain or drizzle along the coast, forest and mountainous areas. Meanwhile, the northern sector is expected to have thunderstorms or rain of varying intensity from tonight into tomorrow morning. However, mist and fog patches amidst intermittent slight rain or drizzle will affect the southern half tomorrow. *Visibility is more likely to be reduced, therefore, road users and the general public are advised to take caution and avoid any accidents.*

NB: Cold temperatures will be experienced across the country during the night and early morning hours.
