SUMMARY: The early hours of the morning will predominantly be variably cloudy with few cases of intermittent slight rain or drizzle along the coast and forest belt. Formation of mist and fog patches are also anticipated to form and reduce visibility between a range from **2km to 8km**. As the day progresses, cloudiness with breaks of sunshine are expected to dominate across all sectors with possibility of **isolated to scattered thunderstorms** or rain over parts of the northern sector.

NB: Cold early morning and late evening temperatures are expected over the entire country.
