GMet Forecast Office

24-HOUR FORECAST FOR GHANA VALID FROM 6AM TODAY

SUMMARY: Most parts of the country will experience mostly cloudy weather this morning which is likely to produce slight rain or drizzle over few areas within the southern half this morning into the afternoon hours. Formation of mist or fog patches are expected over some areas along the coast, forest and mountainous regions reducing visibility (**2-8km**). As the day unfolds, variably cloudy conditions with breaks of sunshine will prevail over most portions of the country. However, thunderstorms or rain are anticipated over parts of the northern half throughout the forecast period.

NB: Cold early morning and late evening temperatures are expected over the entire country.
