SUMMARY: In general, cloudy weather will persist across most places in the country with the likelihood of intermittent slight rain or drizzle affecting parts of the coast, middle and transition belts this morning. Visibility range is anticipated to be deteriorated between **800m** and **4000m** due to mist and fog patches shrouding mountainous and forest areas in the early hours. As the day unfolds, sunny breaks are expected over most places in the country with late afternoon thunderstorms and rain affecting the upper regions whereas places in the south also experiences slight rain drizzle.

NB: Cold early morning and late evening temperatures are expected over the entire country.
