24-HOUR IMPACT-BASED FORECAST FOR GHANA

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	22	28
Forest	22	29
Transition	21	30
Northern	22	31

SUMMARY: This morning, southern Ghana will be dominated by mostly cloudy conditions with few areas expected to experience slight rain or drizzle. Mist or fog patches will form and reduce visibility over areas along the coastal, forested and hilly areas. Also, thunderstorm or rain of varying intensity will affect parts of northern Ghana. As the day progresses, variably cloudy weather with occasional sunshine will be observed across the country. However, from late afternoon into the evening, thunderstorms or rain are anticipated over parts of the transition and northern sectors.

NB: Cool temperatures will be experienced across the country during the night and early morning hours

SIGNED: Central Analysis and Forecasting Office (CAFO)
