Rain	Wind	Dust	Hail	Mist

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	22	28
Forest	21	29
Transition	21	30
Northern	22	31

SUMMARY: Partly cloudy weather is expected to dominate most places over the southern half of the country tonight with chances of thunderstorms or rain affecting places within the middle, transition and northern sectors. Mist or fog patches will form over the coastal, forest and hilly areas of southern Ghana early tomorrow morning thereby reducing visibility along these areas.

NB: Cold temperatures will be experienced across the country during the night and early morning hours.

SIGNED: Central Analysis and Forecasting Office (CAFO)
