SUMMARY: Generally, variably cloudy weather is expected to be dominant in the early hours of the morning amongst misty and foggy patches over hilly and forest areas reducing visibility. Few cases of drizzle conditions are likely to affect some places within southern Ghana as well. However, as the day unfolds, sunny periods with pockets of cloudiness is expected to prevail substantially during the afternoon hours. Isolated cases of thunderstorms and rain are anticipated for parts of the northern sector from late afternoon into the evening.

NB: Cold early morning and late evening temperatures are expected over the entire country.
