SUMMARY: Generally, variably cloudy weather will prevail across all sectors of the country with localised formation of mist and fog patches over hilly and forest places which will affect visibility range in the early hours. Slight rain or drizzle is likely to affect few areas within southern Ghana. Notwithstanding, sunny intervals will be seen for most areas during the afternoon hours with the likelihood of slight rain or thundery showers affecting southern and northern Ghana respectively from late afternoon into the evening.

NB: Cool early morning and late evening temperatures are expected over the entire country.
