

⚠️ Rainstorm

📌 Urgency: Immediate **⚠️ Severity:** Moderate
📍 Certainty: Observed

Issued: Wed 01 Oct 2025 13:32	Effective: Wed 01 Oct 2025 13:17	Onset: Wed 01 Oct 2025 13:30
	Expires: Wed 01 Oct 2025 20:00	

Area:
Western, Central, Western North, Ahafo, Greater Accra, Bono East, Ashanti, Eastern, Volta, Oti

Description:

A moderate rainstorm currently at the eastern flank of Ghana is anticipated to produce thunderstorms or rain of varying intensity over parts of southern Ghana. The storm is likely to be accompanied by moderate winds with possibility of flash floods over low lying areas.

Instruction:

Avoid moving through flood waters. Visibility is likely to be affected so motorists are advised to drive with caution.
