Description:

A moderate rainstorm over the eastern border of Ghana is expected to drift to the west to affect areas within the northeast region. The storm is expected to produce thunder with moderate to heavy rain within the region. Occasional gusty winds are anticipated to accompany the rains.

Instruction:

Avoid going outside unless absolutely necessary. Stay indoors to protect yourself from heavy rain, thunder, and strong winds. Stay away from low-lying areas, riverbanks, and other flood-prone regions. Flash flooding can occur quickly. If you must travel, drive with

caution. Roads may be slippery, and visibility can be reduced due to heavy rain. Avoid driving through flooded areas
