SUMMARY: Early morning mist or fog patches coupled with cases of thunderstorms or rain are expected over parts of the coastal and inland areas. As the day advances into the afternoon, sunny conditions with periodic cloudiness will dominate much of southern Ghana. However, from late afternoon into evening, thunderstorms or rain are expected over the middle sector (Eastern, Volta, Ashanti, Western North regions) and areas slightly north of the coastline. Hot and sunny weather will prevail over the northern sector with few cloud developments.
