SUMMARY: Mist and fog patches are likely to develop along parts of the coast, high grounds and forest zones during the early morning hours. Sunny conditions will prevail over greater parts of southern Ghana as the day advances into the afternoon. From late afternoon into the evening hours, localized formation of rain clouds is expected over areas within the Eastern, Volta, Western North, Western, Ashanti, Ahafo and Bono regions. The northern sector will remain generally sunny with relatively dry conditions over the extreme regions.
