SUMMARY: During the early morning hours, misty or foggy weather is expected to develop and reduce visibility within the forest and hilly areas of southern Ghana. Partly cloudy conditions will dominate the remaining sectors. As the day advances, mostly sunny conditions with occasional cloudiness will be observed across southern Ghana. Nonetheless, there is a likelihood of thunderstorms with rain over the coastal and middle sectors later in the day.

NB: A weak to moderate rainstorm situated over southern Benin is anticipated to propagate to affect parts of southern Ghana during the afternoon hours.
