GMet Forecast Office

## **24-HOUR FORECAST FOR GHANA** **VALID FROM 6AM (18/11/2025)**

**SUMMARY:** This morning, misty and foggy conditions are anticipated within the forest and high ground areas of southern Ghana which will result in reduced visibility. Bright and sunny conditions are forecast to affect most areas within the southern half as the day advances. Localised thunderstorms or rain are likely over parts of the forest and transition areas from late afternoon into the evening hours. The northern sector, will however experience hot and sunny weather with few cloud developments. Also, fairly dry and slightly hazy conditions are expected to dominate the upper regions throughout the forecast period.
