<i>Sector</i>	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	32
Forest	22	34
Transition	22	35
Northern	23	37

SUMMARY: Tonight, partly cloudy weather will prevail across southern Ghana with thunderstorms or rain affecting parts of the middle and transition sectors. Slightly hazy conditions amidst few cloud developments will dominate the northern half of the country from this evening into the morning. Early tomorrow morning, mist or fog patches are likely to form along the coast, mountainous and forest zones.
