Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	32
Forest	22	33
Transition	21	35
Northern	21	38

SUMMARY: Sunny weather with occasional cloudiness will prevail over most areas of southern Ghana early this afternoon. From late afternoon into the evening, localised development of clouds is expected to produce thundery showers over parts of the coastline, slightly north of the coastline, middle and transition sectors. The northern sector will remain fairly dry and slightly hazy throughout the forecast period.

NB: Relatively cool night temperatures are expected over the upper regions

SIGNED: Central Analysis and Forecasting Office (CAFO)
