| Sector     | Minimum Temperature (°C) | Maximum Temperature (°C) |
|------------|--------------------------|--------------------------|
| Coast      | 24                       | 31                       |
| Forest     | 22                       | 33                       |
| Transition | 21                       | 35                       |
| Northern   | 21                       | 38                       |

**SUMMARY:** The thunderstorms with rainfall activities occurring over parts of the eastern coast (*Greater Accra region*) due to the band of thunder and rain-bearing clouds that propagated into the country, are expected to intensify and expand to affect more areas along the coastal stretch this afternoon. The middle, transition and northern sectors are expected to experience mostly sunny conditions with dry and slight haziness over parts of the northern sector.

**NB:** Relatively cool night temperatures are expected over the upper regions
