Rain	Wind	Dust	Fog	Hail	Mist

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	22	32
Forest	21	33
Transition	23	35
Northern	23	37

SUMMARY: Generally, misty or foggy conditions will prevail over places within southern Ghana during the early hours of the morning, making visibility poor. This weather condition will be followed by sunny periods across all sectors of the country with **localised thunderstorms** or **rain** expected to affect areas within the inland and forest areas. Meanwhile, the northern sector is expected to continue experiencing varying intensities of the dry and hazy conditions as well as hot temperatures in the afternoon.

NB: *Relatively cool night and early morning temperatures are expected over the upper regions.*
