SUMMARY: Predominantly, sunny conditions amidst occasional cloudiness will be observed in most parts of southern Ghana this afternoon. However, pockets of localized developments are likely to induce thundery activities or rain along the coastline, some inland areas of the coastline (**Danfa, Abokobi, Adoagyiri, Breman Asikuma, Twifo Praso** and their surroundings) and the middle sector late afternoon into the evening hours. The northern sector will however experience sunny conditions as well as varying dry and hazy weather throughout the forecast period.

NB: Relatively cool night and early morning temperatures are expected over the upper regions
