Forest	23	34
Transition	22	35
Northern	19	37

**SUMMARY:** Generally, misty or foggy conditions will prevail over southern Ghana whereas the north is anticipated to experience fairly dry and slightly hazy conditions. These weather phenomena are anticipated to reduce visibility range especially in the early hours of the morning therefore motorists are advised to exercise caution. As the day progresses into the afternoon, bright, fair and sunny conditions of varying temperatures will dominate most places within the country with few cases of **localised thunderstorms** or **showers** expected to affect the **inland areas** of the **coast** into the **middle sector** from late afternoon into the evening.

**NB:** *Relatively cool night and early morning temperatures are expected over the upper regions.*
