Description:

Thunder and rain clouds are building up with the inland areas of the coast. These clouds are expected to develop further and produce pockets of rain and thunder within the Volta, Eastern, Greater Accra, Central and Western regions.

Instruction:

If you hear thunder, seek shelter indoors to avoid lightning strikes. Roads may become slippery. Drive carefully and reduce speed to avoid accidents. Consider postponing

outdoor activities until the weather clears. Keep updated with the latest weather reports and alerts from reliable sources.
