

24-HOUR IMPACT-BASED FORECAST FOR GHANA

| Sector | Minimum Temperature (°C) | Maximum Temperature (°C) |
|------------|--------------------------|--------------------------|
| Coast | 23 | 33 |
| Forest | 22 | 34 |
| Transition | 21 | 35 |
| Northern | 20 | 37 |

SUMMARY: With reference to earlier weather updates, localised thunderstorms or rain will continue to dominate the *southern half of the country* with varying intensity. Moderate to strong winds are expected to precede the downpour. Early tomorrow morning, mist or fog patches will form along the coast, forest and high ground places causing a reduction in visibility.

NB: Relatively cool night and early morning temperatures are expected over the upper regions.
