SUMMARY: This morning, mist and fog patches are expected over parts of the coast, mountainous, and forest areas, resulting in reduced visibility in some locations. As the day progresses, partly sunny conditions with intermittent cloudiness will prevail across southern Ghana, with localized thunderstorms or rain likely over the coast, nearby inland areas, and parts of the middle sector from mid-afternoon into the evening. Northern Ghana will experience mostly sunny conditions in the afternoon, with fairly dry and slightly hazy weather persisting throughout the forecast period.

NB: *Relatively cool night and early morning temperatures are expected over the upper regions.*
