

⚠ Imminent Thunderstorms

🕒 Urgency: Expected

⚠ Severity: Severe

🎯 Certainty: Likely

Issued:

Wed 09 Oct 2024
4:10 PM

Effective:

Wed 09 Oct 2024
4:30 PM

Onset:

Wed 09 Oct 2024
4:30 PM

Expires:

Wed 09 Oct 2024
9 PM

Area:

Upper West

Description:

Moderate to heavy localized rainstorm has developed over the north eastern portions of the country and it is expected to propagate westwards to affect the Upper West region. Some areas within the Upper West are likely to experience moderate to strong winds. There are prospects of localized flash floods over some places.

Instruction:

Avoid moving through flood waters.
