Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	33
Forest	23	34
Transition	22	35
Northern	21	39

SUMMARY: Partly cloudy weather is expected across much of southern with few cases of localised thunderstorms or rain. However, for the northern sector varying dry and hazy weather will persist throughout the forecast period. Mist and fog patches is likely to develop along parts of the coastal, hilly and forest zones early tomorrow morning which may affect visibility.

NB: Relatively cool night and early morning temperatures are expected over the upper regions.
