**SUMMARY:** Partly cloudy conditions are anticipated over the coastal belt and nearby inland areas this afternoon. A rainstorm currently observed along the Nigerian coast is expected to move westward, leading to the development of localised thunderstorms and rain affecting coastal and some inland areas from late afternoon into the evening. Elsewhere, sunny conditions will prevail, while northern Ghana will experience sunny weather accompanied by dry and slightly hazy conditions throughout the forecast period.

**NB:** Relatively cool night and early morning temperatures are expected over the upper regions
