## 24-HOUR IMPACT-BASED FORECAST FOR GHANA

Weather Forecasting Risk Table				
Likelihood ↑	High (>60%)	G	H	I
	Medium (40% - 60%)	D	E	F
	Low (<40%)	A	B	C
		Low	Medium	High
		Impact →		

Weather Icons					
Rain	Wind	Dust	Fog	Hail	Mist

Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	33
Forest	23	34
Transition	21	37
Northern	18	38

**SUMMARY:** The early hours of the morning will be dominated by misty or foggy conditions over southern Ghana whereas the north half experiences dry and hazy conditions throughout the forecast period. These weather conditions are expected to impede visibility range this morning and into the afternoon therefore, motorists and other road users are advised to be cautious. During the afternoon, mostly sunny conditions with few clouds will be predominant over most places with varying degrees of temperatures across the country. Few cases of localised thundery showers are expected for portions of coast and the inland areas from late afternoon into the evening.

**NB:** Relatively cool night and early morning temperatures are expected over the northern sector.
