| Sector     | Minimum Temperature (°C) | Maximum Temperature (°C) |
|------------|--------------------------|--------------------------|
| Coast      | 24                       | 33                       |
| Forest     | 23                       | 34                       |
| Transition | 22                       | 36                       |
| Northern   | 18                       | 37                       |

**SUMMARY:** Sunny weather will prevail across most places within the southern half of the country this afternoon. Localised developments of clouds are expected to produce thunderstorms or rain along the coast, few inland areas and parts of the middle sector from late afternoon into the evening. The northern half will however, experience dry and hazy weather conditions throughout the forecast period.

**NB:** Relatively cool night and early morning temperatures are expected over the upper regions
