**SUMMARY:** Mist or fog patches are expected over most parts of southern Ghana early this morning with reduced visibility along the coastal, mountainous and forest zones. From mid-morning, fair weather amidst slight haze will prevail over most parts of the south. However, occasional cloudiness may trigger rain showers over the western coast and few nearby inland areas. Meanwhile, the northern and transition sectors will continue to experience dry and hazy conditions, with visibility ranging between **2 km and 8 km** throughout the forecast period.

**NB:** Cold night and early morning temperatures are expected over the northern sector.
