Transition	16	36
Northern	20	37

SUMMARY: Early this morning, mist and fog patches are expected to affect the coastline, forested and mountainous places, thereby reducing visibility in these areas. As the day advances, sunny conditions coupled with dry and hazy weather of varying intensity will dominate most parts of the country throughout the forecast period. Visibility is expected to range between *300 meters and 8000 meters*.

NB: Cold weather is expected during the night and early morning hours over the northern and transition sectors

CAUTION!

- Motorist are advised to use fog lights and drive at safe speeds due to deteriorated visibility.
- The public, especially in the northern sector, is urged to handle naked fires with caution due to the dry conditions to prevent fire outbreaks.
