Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	33
Forest	22	36
Transition	18	37
Northern	17	37

SUMMARY: Sunny weather with slightly hazy conditions will prevail over most areas within southern Ghana with the likelihood of localised showers over portions of the west coast and its inland areas this afternoon. Northern Ghana will experience varying intensities of dry and hazy conditions throughout the forecast period. Visibility is expected to range between 300m and 8000m.

NB: Cold weather is expected during the night and early morning hours over the northern and transition sectors.

CAUTION: Due to the prevailing dry conditions, the public, especially in the northern sector, is strongly advised to handle naked flames with extreme caution to prevent fire outbreaks.

SIGNED: Central Analysis and Forecasting Office (CAFO)
