SUMMARY: Sunny weather amidst slightly haze will prevail over most parts of southern Ghana with likelihood of some localised showers over few places within the coastal and inland areas from late afternoon into the evening hours. Northern Ghana will experience dry and hazy conditions of varying intensity throughout the forecast period. Visibility is expected to range between 3000m and 8000m.

NB: Cold weather is expected during the night and early morning hours over the northern and transition sectors.

CAUTION: Due to the prevailing dry conditions, the public, especially in the northern sector, is strongly advised to handle naked flames with extreme caution to prevent fire outbreaks.
