Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	24	34
Forest	23	36
Transition	21	38
Northern	22	39

SUMMARY: Mostly cloudy weather is expected for most parts of southern Ghana in the early hours of this morning amidst misty and foggy conditions over the coast, forest and mountainous regions. However, few cases of showers are anticipated to affect the coastline and inland areas. Mostly sunny conditions will prevail across the country with the likelihood of localized thunderstorms or rain over parts of the coast and middle sectors during the afternoon hours. Slightly hazy conditions will affect parts of the south, while the northern sector remains dry and hazy throughout the forecast period.

NB: From this week, daytime temperatures will have a gradual increase across the country.
