Description:

Thunder and clouds building up over the northeast are expected to develop further and spread to affect areas within the northwest. Rain of varying intensity with thunder is anticipated tonight over parts of the upper east, northeast, northern, savannah and upper west regions.

Instruction:

Stay indoors: Avoid going out unless absolutely necessary. Bring in outdoor furniture and secure any loose objects to prevent them from being blown away. Protect your devices from potential power surges. Keep a flashlight handy in case of power outages.
