SUMMARY: Bright afternoon sunshine will prevail across the southern half of the country, while parts of the middle sector will experience fairly dry and slightly hazy conditions. However, some clouds may develop and could produce localized showers over a few coastal and nearby inland areas. Dry and hazy conditions of varying intensities will dominate the northern and transition sectors throughout the forecast period, with visibility ranging between **2000m** and **8000m**.

CAUTION: Due to the prevailing dry conditions, the public, especially in the northern sector, is strongly advised to handle naked flames with extreme caution to prevent fire outbreaks.
