Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	25	33
Forest	23	35
Transition	22	36
Northern	23	38

SUMMARY: Tonight, partly cloudy conditions are expected over the coastline and parts of the middle sector with localized rain affecting a few areas. The northern and transition sectors will continue to experience dry and hazy conditions of varying intensity from this evening into the morning. Early tomorrow morning, mist or fog patches will form along the coast, as well as in forested and mountainous zones. Visibility is expected to range between 1000m and 8000m throughout the forecast period.

CAUTION: Due to the dry conditions, the public, especially in the transition belt and northern sector, is strongly advised to handle naked flames with extreme caution to prevent fire outbreaks
