Northern	21	39

SUMMARY: This afternoon, sunny weather will prevail across the entire country with most places in the southern half experiencing fairly dry and slightly hazy conditions. Localised rains are, however, anticipated over a few coastal and inland areas from late afternoon into the evening hours. The northern half will experience varying intensities of dry and hazy weather throughout the forecast period with visibility ranging from 3000m and 9000m.

CAUTION: Due to the prevailing dry conditions, the public, especially in the northern sector, is strongly advised to handle naked flames with extreme caution to prevent fire outbreaks.
