**SUMMARY:** Few cloud developments are anticipated along the coastline and the inland areas this evening. However, localised thunderstorms or rain are expected over few places in the middle sector of the country. Dry and hazy weather of varying intensity will prevail over the middle, transition and northern sectors of the country throughout the forecast period. Mist and fog patches are likely to develop over the forest, coastal and mountainous areas early tomorrow morning. Visibility is expected to range from 3000m to 9000m

**CAUTION:** Due to the dry conditions, the public, especially in the transition belt and northern sector, is strongly advised to handle naked flames with extreme caution to prevent fire outbreaks
